

RETRACTABLE TRAILER RACK

Securely transport precast panels from plant to site with the Spancrete Retractable Trailer Rack. Designed to effortlessly increase a fleet's carrying capacity as needed, a single rack has a weight capacity of 45,000 pounds (20,500 kg). The rack retracts back to legal load widths to avoid escorting, permitting and nighttime restrictions, and eases city maneuverability. Simple, hand winch-operated positioning enables crews to accommodate panels up to 14 feet (4.27 m) while an adjustable height stabilizer ensures safe product loading and unloading.

TECHNICAL DETAILS

Capacity	45,000 lb (20,500 kg) Includes 50,000 load capacity adjustable height stabilizer for loading and unloading product.
Height	Retracted: 9 ft (2.74 m) Extended: 9 ft (2.74 m)
Length	2.67 ft (.81 m)
Width	Retracted: 8.5 ft (2.59 m) Extended: 12.5 ft (3.81 m)
Weight	2,500 lb (1,333 kg)
Operation	Hand winch operation, positions for 8', 10', 12', 14' panels; 38° angle
